DIARY NOTES

<u>DD/S</u> ▮▮▮▮▮▮▮

26 July 1960

1. We received a letter from the Comptroller General saying that we could purchase contact lenses for certain Photographic Intelligence Center people already employed but that we could not buy them for new employees nor could we buy replacements for our present employees if those purchased initially should be broken.

3. I talked to Emmett Echols and ▮▮▮▮▮ several days ago about training for our reserve officers. It was agreed that it would be desirable to have the Director of Training undertake a study of this problem and submit his recommendations. Emmett also talked with Matt and unless I hear to the contrary I assume that there will be no problem in having Matt do this.

4. ▮▮▮▮▮▮▮▮ telephoned to say that Mr. Pahl of the General Accounting Office had asked for all of the NSCIDs and the DCIDs pertaining to DD/I. I told him I was sure that we would not object but that he should send the group which he proposes to turn over to us for our approval. I emphasized that we wished to maintain a strong position that all material of this type had to be cleared by this office before it could be turned over to the General Accounting Office.

8. I talked again with Doctor Tietjen about Doctors ████████ taking the ████ Health Group Plan with the idea of using it to obtain certain training. I told him that this was a black and white situation as far as I was concerned and that I wanted them to understand very clearly that the Agency not only would not be a party to this business but would, in fact, feel morally obligated to see that the Government was not taken for a ride in this way. I also told him to make it clear to them in his conversations that I would be very glad to talk with them if there was any doubt in their minds as to how I felt.
